# Yeti Microphones

## The Yeti microphones need to be on certain settings to achieve the best sound over remote learning.

### Settings on the mic.

- Have the gain all the way to the right.
- Put the pattern on the O.
- On the other side of the make, make sure the volume is all the way up.
- Make sure the mute button on the mic is off.

GAIN
PATTERN

## Settings on your laptop.

- Ensure you have the microphone set to the YETI.
- Have the background noise suppression set to Auto.
- Set volume all the way up for the mic.
