Create helpdesk tickets in other departments' projects

Users who are agents for a helpdesk project may need to submit tickets to other helpdesk projects. (IT, facilities, etc.) The process to submit a helpdesk ticket is not the same as other users.

Steps

- In your project's screen, look to the left hand side and select **Raise a request**. If you have your screen side dash collapsed, it will look like the + in a box without the words.

- Next it will bring you to a new webpage. Click on the **NTCC Helpdesk** at the top of the page.
